

Action Plan for Primary P.E. 2016 - 17

OBJECTIVE	Review – February 2017	ACTION AND RESOURCES	LEAD PERSON/ TEAM	PD REQUIREMENTS	SUCCESS CRITERIA/ IMPACT ON PUPILS
Provide more opportunities for pupils to attend swimming lessons.	Objective Achieved. Additional slots were arranged with Bedale Leisure Centre so all primary classes attended swimming this year.	Investigate opportunities for all the primary classes to attend swimming lessons for a whole term this school year (some groups only accessed swimming for half a term last year and there are now 9 primary classes).	J. Moran	None.	All primary classes to attend swimming lessons for a whole term during the school year. Good progress or better made with swimming/ water confidence – see 2Build Reports, Annual Review Reports, etc.
Identify and organise any P.E. training needed by primary teaching staff in order to continue to improve the quality of P.E. being delivered.	NG found P.E. course very beneficial. Not been easy to fit in P.E. courses (other training priorities, staff absences, etc.) However, I have now provisionally booked “Delivering High Quality P.E. to Young People with ASD” at Hadrian School, Newcastle.	Email to teaching staff and add to agenda for primary dept. meeting. Research available training/courses, including discussion with Val French. Discuss cover arrangements with KO.	J. Moran	As identified in training requests from staff.	All primary teaching staff to respond with their PD/training requirements for P.E. (especially teachers who are relatively new to Mowbray and HLTA’s who teach P.E.).
Organise Jabadao (dance) training for staff from P1-P6 in order to facilitate wider participation in Jabadao across these groups.	Although this training had to be cancelled due to other whole school training priorities, we used the primary P.E. funding for additional jabadao sessions and the feedback from all teachers has been very positive. Jabadao access regularly by P1 P2 P3 P4 P6.	Speak with KO and KP regarding when this could be done. Then speak with training organisation to rearrange the training that had to be cancelled in September.			Many very positive pupil outcomes reported: e.g. P4 have really benefitted from the sessions. All the children have responded well to Amy due to her lovely nature. Hayley Brown, for example, is always calm and relaxed during jabadao sessions and this has a calming effect on her for the rest of the day. Staff in P3 have also reported many positive outcomes. For example, Lucy has shown much improved eye contact during jabadao; Patrick has developed his ability to engage with others and has then applied this learning in P.E. lessons; Patrick has also shown improved communication, especially in relation to initiating activities and communicating with others in connection with taking turns; and Lucy has begun to make choices and

Action Plan for Primary P.E. 2016 - 17

			<p style="color: red;">communicate these during jabadao. (Also, see Primary Intervention Mapping and 2Build). Mrs Howell feels that when doing RT or Jabadao her pupils are at their happiest and most calm. Also, that this has helped them to achieve greater progress with their physical development as well as communication skills.</p>		
Identify any additional P.E. equipment requirements.	<p>We are very well resourced for P.E. However, following recent requests from primary teachers I have now ordered some additional equipment to support specific classes, this includes equipment to further enhance the jabadao sessions.</p>	Email to teaching staff and add to agenda for primary dept. meeting. Also, discuss with Fran.	J. Moran	Possible training on use of new P.E. equipment – likely to be from Mowbray P.E. staff.	All primary teaching staff to respond with any P.E. equipment/resources required for P.E.
Provide opportunities for our pupils to experience a wider range and greater amount of sporting opportunities/activities.	<p>Cycling – open this up to more primary groups through Key Skills on Fridays. Achieved (P1, P2, P7, P8, P9). Jabadao with Amy on Mondays/Fridays. Achieved (5 classes). Wider attendance at SSP events – discuss bringing more than one primary group to events. Achieved (P7 P8 or P9 have attended all events and we have taken two classes together twice). Mowbray have been very</p>	Cycling – open this up to more primary groups through Key Skills on Fridays. Jabadao with Amy on Friday mornings (5 primary classes) and during the week once primary staff are trained. Wider attendance at SSP events – discuss bringing more than one primary group to events. Outdoor Ed. at Adrenalin, Harrogate climbing wall, etc. (Friday Key Skills).	J. Moran	Primary staff may request additional training in order to achieve this objective.	All primary pupils to have experienced at least one new P.E./sports activity during this school year. The SSP events and Panathlon events have had a very positive impact upon the pupils who have attended and participated. Pupils have experienced a wide range of new sports and activities. There has also been a noticeable impact on many pupils in terms of greatly improved confidence and self-esteem. As well as a real sense of achievement and of being

Action Plan for Primary P.E. 2016 - 17

	<p>successful at SSP events and P9 have just become Panathlon Champions for NE England.</p> <p>SSP jabadao event on 14th March is an opportunity for our less able classes.</p>				<p>part of a team, e.g. "I can't believe we've actually won and we are the champions". Also, "This is the best day ever". See Panathlon report on Panathlon.Com.</p>
<p>Provide more opportunities for primary pupils to access rebound therapy.</p>	<p>Three classes currently access RT each week.</p>	<p>Investigate opportunities for greater access to rebound therapy as a regular part of our primary curriculum. Check availability of hall, trampoline, trained staff, etc.</p>	<p>Many very positive pupil outcomes reported: e.g. This has been a very positive experience for all the P3 pupils. They really enjoy Rebound Therapy. Both Patrick and Ryan have shown improved balance and core strength. All the pupils have shown greatly improved engagement and confidence, especially Samuel. The improved confidence and enjoyment that the pupils have had in RT have enabled them to make greater progress and enjoy success in other areas of P.E.</p> <p>Mrs Bain reports that the pupils in P1 have benefitted hugely from rebound sessions each week. They have improved their ability to listen to and follow instructions; developed improved balance and basic movement skills; and enjoyed a positive sensory experience which then impacts positively on the rest of their day.</p> <p>Mrs Gill reports that Isaac's parents have commented on how his core strength and concentration levels have improved since taking part in regular RT. Hannah has also shown a great boost in her confidence and is now much happier to explore body position and a wider range of movements that have improved her posture. RT has also contributed towards meeting the sensory needs of some very challenging pupils, resulting in a positive impact in terms of improved behaviour, improved access to physical activities generally, and development against SALT targets.</p>		
<p>Consider how we can use the P.E. funding to target our overweight or less</p>	<p>Mr Noble has started after school RT sessions which are being accessed by 4</p>	<p>Discuss with secondary P.E. staff to establish previous work on this and plans going</p>	<p>J. Moran K. Oliver B. Noble</p>	<p>This might be linked to the training requested</p>	<p>Pupils identified as being likely to benefit from a more active lifestyle will have additional</p>

active pupils.	pupils (2 primary). Primary classes generally are more active though with P.E., swimming, bikes, SSP events, jabadao, RT, etc.	forward. Discuss at primary dept. meetings. Organise how this can be included as part of our timetable/curriculum.	F. Nichol	by primary staff.	opportunities to engage in physical activity (how much, how often, etc. to be agreed).
To further increase the number of primary staff with rebound therapy training.	The P.E. funding was used to train Trudy and Laura. However, with Laura and Shara leaving, and Deb P/Deb M not in primary we now need to train more TAs in RT.	Arrange further RT training with Val French and also discuss with KO to ensure that we can cover staff to attend.	J. Moran	Trudy Woodhead to complete RT training in September 2016, then 2 other primary staff during the year.	RT training completed by 3 additional members of the primary staff.

- Investigate NYCC cycling safety advisor to again run a course with Y6 pupils.
- Future plans to improve indoor or all-weather outdoor sports facilities?
- Use of funding for staff to deliver sports at lunchtime break?
